

Take hold of your health with  
Care4Today™ Mobile Health  
Manager, a self-directed  
medication reminder  
platform...and much more.

## Color-Coded System

Care4Today™ Mobile Health Manager uses a Color-Coded system to help you see when it's time to take your medication and helps you stay on schedule.

## care4family.

Support your family members and loved ones by monitoring their medications and encouraging them to stay on schedule.

## care4charity.

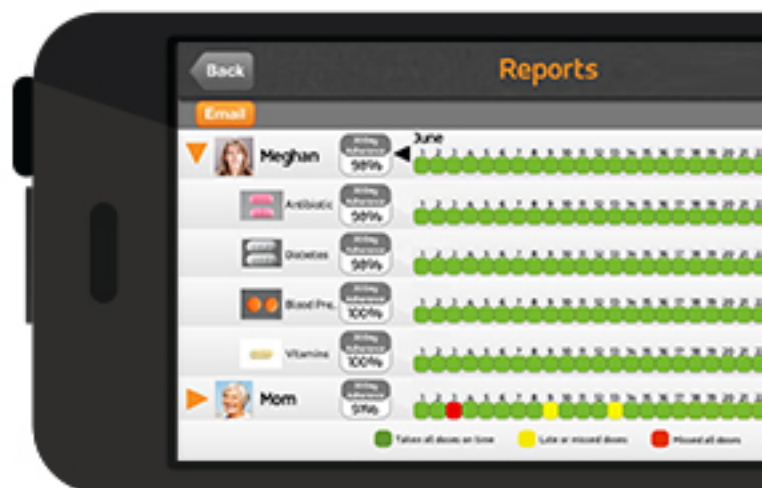

Find out how you can support charities by using the application.

Learn more at:  
[care4today.com/mhm](http://care4today.com/mhm)

## Adherence Report

Share graphs on how you're doing on your medication schedule with loved ones and your healthcare provider.
